Care tips for your bathtub/shower

Your bathtub or shower has been repaired/refinished with the finest products available. To retain the beauty and luster of the bathtub/shower surface, we recommend:

1. Using a liquid bath soap rather than bar soap.
2. Only clean your bathtub/shower with a non-abrasive cleaner.
3. Use a surface protectant such as Gel Gloss periodically.
4. Do not use conventional suction cup bath mats.

If you treat your new surface with respect and clean it regularly, your bathtub/shower will stay shiny and bright for years.
