

STONE-FLECKS™ MULTICOLOR FINISHES

STONE-FLECKS™ MULTICOLOR FINISHES

What Is STONE-FLECKS™?

STONE-FLECKS™ is an acrylic polymer based coating system that produces the stone or granite like finish so popular in today's kitchens and bathrooms.

With STONE-FLECKS™ you can quickly and inexpensively upgrade a wide range of surfaces with a new modern look in just a matter of hours!

Applications...

- ◆ Countertops
- ◆ Cabinets
- ◆ Bathtubs
- ◆ Ceramic Wall Tile
- ◆ Clawfoot Tub Exteriors
- ◆ Walls, Hallways, Foyers
- ◆ Furniture
- ◆ And Much, Much More!

Save Big \$\$\$

Refinishing bathroom and kitchen fixtures, walls, and solid surfaces produces spectacular savings...as much as **70%** over the cost of replacement.

Combined with our unique bonding agents and protective finishes, STONE-FLECKS™ allows you a full range of options in upgrading all kinds of surfaces at an economical price.

- ◆ Easy To Apply
- ◆ Non-Yellowing
- ◆ Hides Surface Defects
- ◆ Dries Quickly
- ◆ Unmatched Durability
- ◆ Waterbased, Low V.O.C.
- ◆ Available in a Wide Range of Kitchen and Bath Colors

How Does It Work?

STONE-FLECKS™ uses a state-of-the-art formula that consists of a background or base color and the color flecks. These flecks are a highly unique part of the proprietary STONE-FLECKS™ process. The color flecks are sealed in during the manufacturing process and released during the spraying application.

This easy to use coating system ensures an evenly dispersed color pattern and goes on more consistently than other multi-color finishes, making surfaces come alive.

Proven Durability

Tested against the leading multi-color brands, STONE-FLECKS™ delivers superior durability, color fastness, abrasion and stain resistance, and flexibility. All of these properties give STONE-FLECKS™ a distinct advantage when refinishing contact surfaces such as vanities, countertops, and ceramic tile.

When you choose STONE-FLECKS™ to upgrade your kitchens and bathrooms, you are choosing the best!

STONE-FLECKS™

MULTICOLOR FINISHES

In The Kitchen...

Create beautiful, colorful, fine-texture finishes that mimic stone and granite on countertops and cabinets. Using **STONE-FLECKS™** instead of wall paper is less expensive and lasts much longer...with no unsightly seams.

In The Bathroom...

Give your ceramic wall tile the look and feel of solid stone, refinish cultured marble tops, or seal your walls against damage from moisture. **STONE-FLECKS™** can even be used on tubs and sinks!

Other Uses...

STONE-FLECKS™ can be used on many other types of surfaces such as bathroom dividers, cinderblock tile, and floors.

Why not call today and see how much **STONE-FLECKS™** can do for you?
